REMARKS

In the Office Action electronically delivered May 10, 2007, the Examiner indicated that Applicant's request to withdraw the May 10, 2006 amendment was a noncompliant amendment. In the above sections entitled "Amendments to the Specification" and "Amendments to the Drawings," Applicant has requested the entry of amendments deleting the text added to the specification and canceling the figures added in May 10, 2006 Amendment. These amendments are made to revert the application to what was pending prior to the May 10, 2006 Amendment. Applicant does not concede that subject matter added in the May 10, 2006 Amendment was new matter in this application, and Applicant reserves the right to pursue this subject matter.

Applicant has addressed the objections raised by the Examiner. Accordingly, Applicant requests that the Examiner withdraw the objection to the specification. Please charge any additional fees, including any fees for additional extension of time, or credit overpayment to Deposit Account No. 11-1410.

Respectfully submitted,
